The Practice Behind the Program

Founded by Dietitian Shilpi Goel, Nutrishilp is one of India's leading functional-medicine nutrition practices — addressing root causes, not just symptoms. Thirteen years of clinical experience have been distilled into this **21-module curriculum** for the next generation of practitioners.

Our Vision

To make root-cause, evidence-based nutrition care accessible to every Indian household — and to train the practitioners who will deliver it.

Our Mission

To equip dietitians with the clinical protocols, case exposure and communication skills to build thriving, ethical practices.

IS THIS YOU?

Built For Where You Are Right Now

NEW GRADUATE

Student / Fresh Graduate

You have the degree, but feel lost about where to begin a clinical career.

IN TRAINING

Intern

You want dependable, condition specific protocols instead of improvising in front of clients.

IN PRACTICE

Practising Dietitian

You want a functional-medicine, root cause approach to your own practice.

CAREER GROWTH

Healthcare Professional

You want to upgrade your clinical skills and widen your patient impact.

— CURRICULUM

Your Learning Journey

21 modules structured like a course of treatment—foundation first, then the clinical conditions you'll manage most, specialised protocols, and finally the skills that turn knowledge into a practice.

01 **Foundation** MODULES 01–02 · ASSESSMENT & DIET PLANNING

Dietary assessment and diet-chart creation — the working skills behind every consultation, from client history to custom, followable plans.

02 **Clinical Core** MODULES 03–10 · WEIGHT, LIFECYCLE & COMMON CONDITIONS

Obesity, weight gain, lifecycle nutrition, specialised diets, chronic disease, diabetes, thyroid and gut health — the conditions you'll see most in clinic.

03 **Advanced Specialisation** MODULES 11–20 · AUTOIMMUNE, MENTAL HEALTH & BEYOND

Inflammatory and autoimmune conditions, mental health, acute illness, deficiencies, aesthetic nutrition, cancer, renal and pain management — widening your clinical range beyond the textbook.

04 **Professional Practice** MODULE 21 · TURNING KNOWLEDGE INTO A PRACTICE

Communication and sales skills — consultation flow, client handling and lead conversion to turn clinical knowledge into a thriving practice.

YOUR INVESTMENT

Everything, for One Simple Fee

- ✓ 30 hours of recorded lectures across all 21 modules.
- ✓ 6 live sessions with direct faculty access.
- ✓ Comprehensive e-notes for every module.
